

- Per the Exercise 2.5 reading and practice on the bookstore project, the only thing I thing I updated in my recipes and users models/tables is the users' ability to add pictures to the users' profile and recipe.
- Frontend Inspirations
 - <https://dribbble.com/shots/20823016-Recipe-s-App>
 - After doing some research, the simplistic and user-friendly recipe app design that can be found at the link above is my favorite/preferred design. I like that the app uses the colors from the image on the homepage as the color palette for the app, which make it feel like a more cohesive design.
